Mrs. Baroaby first met Dr. Graves at his office on Broadway, at Providence, in 1905, where he undertook her case. Dr. Graves was born in Norwich, Conn., on January 20, 1841; graduated from Harvard Medical school in 1871, and practiced in soveral cities before locat-Mrs. Barnaby's implicit confidence. He treated her in Providence for some time until Mrs. Barnaby and Mrs. E. S. Wor. rell. Sr., an old acquaintance of Mrs. Burnaby left there for a trip to Californin in 1801. Their trip was not beneficial to Mrs. Barnaby and the two came to Denrer in March of the year mentioned. On the afternoon of Sunday April 19, 1891, Mrs. Barcaby died at the residence of Mr. E. S. Worrell, St., in this city where they were stopping.

Both Made III.

Her death was due to the effects of a glass of whisky toddy, which she drank on April 13, which she and Mrs. Worrell had trank after returning from a ride to the Worrell's ranch near the city. Both were taken ill, but Mrs. Worrell not as seriously as her companion. Hospicton at once attached itself to the whisky from which the toddy had been made and which Mrs. Worrell said she fait sure contained poison. This whisky had been sent to Mrs. Barnaby from the east on March 31. The bottle was not immediately taken to the Worrell home, but lay around for everal days, includ ing several hours in a livery stable where it had been carried in the Wor cell's luggy by mistake. On the night of April 13, Mrs. Sarnaby took the which and made from it two which y toddies, one for herself and one for Mrs. The latter drank a little of it and sat down railing it "masty stuff." Mrs. Hurnaby drank all of hers. The resort was death.

ATTORNEY STEVENS' STORY. Dr. Graves Ordered Address Written on the Whisky Bottle.

DESTER, Colo., Sept. 3.—Attorney I. N. Stevens prepared a lengthy statement to the public in defense of his conduct in the Graves case and giving out the new evidence secured on his recent trip

The most important evidence is the letter written by Joseph M. Breslin of Canton, Mass, in which he says he wrote the address on the bottle of whisky sent to Mrs. Burnaby at the request of a

man whose description tallies with that Mr. Stevens details the history of his connection with the case at length and expresses regret that the matter could not be fully heard and determined in court. He denies that any improper influence was used in the case and says be was simply doing his duty as public

prosecutor in the case. It was decided not to hold the autopay on the remains of Dr. Graves tonight It will be held tomorrow morning.

WILL PASS THE BILL

Majority of Senators Favor Voorhees' Silver Repeal Bill.

SENATORS BOOKED TO SPEAK

Rules--Flood of Bills Awaiting Introduction.

Washington, Sept. 3.—The senate shows no disposition to shirk the responsibility placed upon it by the house, to pass the bill to repeal the purchasing clause of the Sherman silver law. Mr. Voorhees has given frequent notice that he will press the repeal bill at all times until it is disposed of. It is expected that Mr. Hale's proposition that the senate meet at 11 o'clock daily will be accorded and thus senate and thus senate and the senate meet at the senat accepted, and thus, gently and gradually, but firmly the pressure will be brought to bear upon the silver men who hold out in the light against repeal. If they are disposed to talk from this out they will be allowed to do so, but whenever there is an intermission, Senator Voor-hees will probably be found persussively suggesting a vote on some amend-ment, and all the time seeking to bring the question to a final vote, the favorable ssue of which he does not appear to

Formal announcement of speeches to be made have been given by Senators Cullom, Stewart and Mills, the first for tomorrow, Mr. Stewart for Tuesday, and Mr. Mills for Wednesday. It is probable also that Mr. Mitchell of Oregon will address the senate on the silver question before the week expires.

Whole Week Fritted Away. The house, instead of adopting the code of rules recommended by the committee on rules in one session, as it was expected would be done, spent the whole of last week, after Monday, in debate upon the committee's report without

coming to any conclusion.

Much of the opposition to the rules was purely fictitious, and was aroused with the belief that while thus engaged the house would at least be saved from doing any damage or anything which it or the country might regret. As there was nothing immediately de-manding attention it was felt that the members could make haste slowly and the full and free, if not disdursive, discussion of the propositions of the committee and the amendments offered by others was not antagonized. But a week having been thus spent the leaders of the house are now, it is be-lieved, satisfied that all has been granted in the way of debate that is necessary or desirable and will make an effort to secure final action on the report on Wednesday, the day to which the house has adjourned. Should they be successful in this the intention is to give Thursday to the introduction of bills and adjourn from date until Monday of part week in case of failure to carry out next week in case of failure to carry out this program, there are no plans for the week, but the progress of events will de pend upon the developments from day to day which no man can foresee.

CONGRESSMEN'S CLERKS. They Will Rave to Look After Such Distributing Hereafter.

Washington, Sept. 3. Secretary Mor-ton has sent the following circular to congressmen: "The congressional division of this department has for many years performed the work of preparing franks for many senators and members of congress in connection with the dis-tribution of seed, cuttings, plants, etc., and was instituted at a time when no allowance was made to senators and

members for clerk hire.
"In view of the fact that each senator and member is now provided with a clerk to aid him in the performance of such duties as may be required in the service of his constituents, it is respectfully submitted that the necessity for the above named division has ceased to exist, and in pursuance of the policy of retrenchment and reform the congressional division of this department will

"Senators and members who desire to have seed distributed direct to their constituents or others, may have the same done by forwarding to this department the necessary franks with the addresses written thereon, or the seed will be delivered in unaddressed packages as heretofore at any place designated that there is no seed to the seed of the nated by them."

WILL TINKER THE TARIFF. Ways and Means Committee Will Begin Work Today.

WASHINGTON, Sept. 3.—The committee on ways and means will tomorrow begin the series it has consented to confuct preparatory to its work of preparing a tariff bill. The first person to be heard is Representative M. D. Harter of Ohio, and his purpose in taking advantage of the opportunity offered by the committee is entirely consistent with his well known and frequently expressed riews upon the subject. "I am going to talk to the committee," he said. about two articles agricultural implements and flour, which I think ought to be placed on the free list, or at least ided within the reciprocity treaties that we make."

Postal Currency.

WASHINGTON, Sept. 3. A proposition is now before congress to facilitate the transmittal of small sums. Under this bill on and after January 1, 1804, the issue of pestal notes will cease, and in stead there is to be issued a postal fractional currency in denominations of 5, 10, 25, 50 and 75 cents. This issue is to be a legal tender for sums of less than \$1 and redeemable in lawful money at any postoffice to the amount of \$1; at any money-order office of the fourth class to the amount of \$5, and at any money-order office of the first, second or \$10 in any one payment to any individ-ual on the same day.

Runaway Electric Car Dashed Into a Saloon.

TWO ARE INSTANTLY KILLED

Brake Refused to Work and Car He came Unmanageable--Fortyfive Persons Injured. CINCINNATI, Sept. 3. What will prove probably the most disastrous street car accident ever recorded took place in this city this evening at 7 o'clock. An electric car dashed down a hill at frightful speed, left the track, broke a telegraph pole and shot into a saloon wreck-

ing both itself and the structure it struck. As a result of the collision two

people are dead, six are injured beyond

recovery and nearly forty more are hart, many of them dangerou many of them dangerously.

It was soon after the Eden park Sunday afternoon concert had closed and the nightly open air audience as usual made a rush for the cars "down town." Avendale electric car No. 644 was soon packed with people and Motorman George Devine. It ran without incident until he reached the grade a mile long that descends into the business portion of the city. Suddenly the brake became unnumerable and the brake became unmanageable and the heavy car began to descend with peril-cus speed. Conductor Charles H. Smith ran to his comrade's assistance but the brake was obstingte and the frightened passengers. By persuasion and force the half hundred or more inand force the half nundred or more in-mates were kept in their seats, while the car now swaying to and fro shot down the hill with awful velocity until reach-ing the intersection of Hunt and Broad-way, it left the track and smashing a telegraph pole which stood in its path into two pieces, plunged into the saloon of George Schmidt.

Forty-Five Persons Injured. There were forty-five persons in the car and not one of them escaped injury. The motorman and conductor jumped just before the car struck the pole and thus escaped a horrible death. The car was smashed into splinters, as was the front of the saloon and the bar and from the debris at once arose agonizing cries and moans. Six patiol wagons were upon the scene within a few minutes and the dead and dying were quickly transferred to the city hospital, where the entire medical staff was soon busily engaged in rendering such assistance as

was in their power. The killed are: Mary Maloney, aged 12, instantly killed. Mrs. Sarah Dublin, aged 35, fractured skull, died at city hospital ten minutes

after arriving there.
Fatally wounded:
Lizzie Johnson, Clara Beckley, Mary
Beckley, Edna Ford, Louisa Best, Albert

Louisa Ehrhardt, Harold Burman, Al-bert Burman, Carrie Reed, Fannie Reed, Mrs. Walter Richards, Leslie Tull, Mary Mahoney, Jennie Cooksey, Mrs. Adolph Schwaill, James McDevitt, Lillie Im-bach, Mrs. John Mahoney, Mrs. Clara Paul and her five children, James Levin,

Charles Smith and George Devine. Coroner Querner has already begun an investigation of the accident, but the cause will not be made known officially for several days. The motorman claims that the car had attained no unusual momentum when the brake refused to lo its office. Of the six given above as fatally injured, it is believed that not one can survive for forty-eight hours. while others of the injured may develope more dangerous wounds than appear at first hasty examinations.

ANSWERS THE DESCRIPTION. Body Found in Detroit May be That of a St. Paul Man.

Sr. Paul, Sept. 3.—The description of the man found dead under the wheel of the steamer City of Alpena at Detroit vesterday answers to that of Alexander K. Dugan who has been missing from his home for about two weeks. Dugan was last seen here August 30. He had for some time past been em-ployed in the office of the disbursing department of the Great Northern rail way. When last seen he was in low spirits. He had just been notified of the cut in wages of all employes of that railway and although he was drawing a good salary he felt despondent and ke of seeking employment elsewhere. The belief is general among his friends that he took a train for Duluth and there embarked on the City of Alpena for Detroit and that he fell from the deck into the river.
